Product range

USAGE - Gardening, Horticulture Building Sites etc.

DIRECT ACTION HAND PUMP

Ori-Plast Direct Action Hand Pumps are widely used for conventional methods of dealing with corrosion which is mainly for reasons like aggressive water, CL₂/CO₂ ratio and bacteria elimination.

Benefits / Advantages

- ▶ No priming is required for this pump which can lift bacterial free ground water from a depth of 15.0 mts.
- ▶ The majority of the parts are made of plastic and rubber, hence are corrosion free.
- ▶ These non-corrosive materials of construction implies no dimensional changes in long service period.
- ▶ Smooth bore discourages any bacterial growth.
- ▶ Extremely sturdy and suitable for use in rural areas.
- ▶ Long service life with almost maintenance free.

Product Range

USAGE - Irrigation, Standard - IS: 14106

Ori-Plast offers different ranges of Direct Action Hand Pumps.
